"A Contented Woman" To-Night. There will arrive from Dayton this noon quite a distinguished lot of theatrica! people-Charles Hoyt and his beautiful wife, Caroline Miskel Hoyt, Clarisse Agnew, the pretty and popular little vocalist and dancer; Belle Archer, Amy Ames, Frank Lane, W. H. Curry, Matt Snyder and others of the Heyt forces, who have become great favorites in Indianapolis. They will all appear to-night at English's in "A Contented Woman," the comedy Mr. Hoyt wrote for his wife. The author will not be in view of the audience, but his experienced hand will direct matters behind the scenes. A Hoyt comedy is ever welcome here and this company will make things very merry for the next two nights and a matinee to-morrow. Numerous musical and terpsichorean specialties are to be introduced and the comedy is much more elaborately equipped in that respect than when seen here in December 1895, when it was almost an untried production. "A Contented Woman" will be found a clever performance by a large and talented lot of peo-ple, who recently made a success of it for weeks at Hoyt's Theater, New York, Mr. Hoyt has crowded houses enjoying his comedies. This visit will probably be no exception. "A Contented Woman" is practically the last big attraction of

Grand-"The Denver Express." The Holden Comedy Company opened a week's engagement yesterday at the Grand in "The Denver Express," a comedy drama of much strength. Its four acts tell an interesting story and the company is made up of capable people. H. M. Blake, C. B. Marvin, T. C. McDonough, Will Chatterton, Ralph Ravencroft, Kate Bruce, Icna Holden, Alice Opie and Kittle De Lorme are in the cast. Good-sized audiences witnessed the opening performances and were apparently well pleased with the play. Little Affice Opic sings and dances with remarkable cleverness for ter tender years. Kittle De Lorme, who has the leading part, is an excellent soubrette, attractive ir voice, figure and manner. "The Denver Express" will be given for the last times this afterseen and to-night. To-morrow and Thursday the play will be "Dangers of a Great City." On Friday "The Westerner" will be presented—a play new to Indianapolis—and the engagement ses Saturday with "The Inside Track." An added attraction, beginning Thursday matinee, will e the famous puglist, Kid McCoy, who will appear between the first and second actsabout 2:30 and 8:30 each performance-in a sparring and bag-punching exhibition.

Empire-"Tenderloin" Company. Sam T. Jack's "Tenderloin" company opened at the Empire yesterday afternoon to a good house and played at night to standing room. The two burlesques "The Radley Bartin Ball" and the "Silly Dinner Trial," take up nearly the whole of the performance, only three vaudeville turns being introduced between. Stella Gilmore, as Mrs. Radley Bartin, is considerable of a comedian and has the center of the stage most of the time. There are more people in the cast than it is custoniary for a burlesque show to furnish; the women are pretty and excellently costumed. The ensemble nances elicited hearty applause yesterday. In the olio are Silvo, an artistic performer on the musical glasses; Clark and Thompson, sidewalk dialogue, and Edna Collins, who looks like a bird and whistles with much sweetness. The closing burlesque is de cidedly broad, yet most of the "jokes" have some wit in them. A number of specialties are introduced in this act, the closing one being a performance of the "koochee-koochee" by one "Egypt" (they are all Egypts now.) It is due the dark-eyed and voluptious formed lady to say she is a conscientious and finished worker in her especial line; in fact, it is the most artistic Milway Plaisance dance given here in a time. ADMINISTRATION DENIES ANY HAND IN INDIANA CHAIRMANSHIP.

Gowdy's Successor to Be Elected This Afternoon at a Meeting of the State Committee.

The question of electing a new chairman of the Republican state committee is exciting considerably more interest than was anticipated and the Denison House lobby was filled last evening with prominent Republicans from various parts of the State who had come to look on. L. P. Mitchell, of New Castle, was the only member of the committee that arrived yesterday, and, as he was one of the doubtful members, there was some interest in finding out where he stood. He expressed himself to two or three of his friends as favorable to McCulloch's candidacy, but said he had not finally determined how he would vote. Senator Self did not arrive and continues to show the utmost indifference to his candidacy. Mr. McCulloch was on the ground early yesterday, and on the same train came W. T. Durbin, who is leading the movement for Senator Self.

The written resignation of Chairman Gowdy is in the hands of Secretary Mansfield and is so worded as to take effect when his successor is elected. The point was raised yesterday that there was no vacancy until his resignation is accepted, and when he arrives this morning he will be asked to change the wording. There was general gratification last even-

ing at the large turn-out as displaying a very general and lively interest in the welfare of the party. The committee will meet at the Denison House at 2 o'clock this afternoon, and as there is nothing for it to do further than to elect a chairman, The powers that be at Washington seem not a little agitated over the rumor that the administration was taking a hand in the matter. It is but fair to say that no such charge has been made, nor has any one with any show of authority to speak The Young People's Auxiliary of Robert's ested in the outcome. Mr. McCulloch is the gentleman Colonel Dick learns is being pushed by the mittee and its agents as the administration candidate for the state chairmanship. To these and all other reports Colonel Dick makes answer that neither himself. Chairman Hanna nor the administration has taken or will take the slightest part, directly or indirectly, in the selection of a state chairman. The administration does not care who is elected, and Colonel Dick says that whether Mr. McCulloch is elected or some other man the result cannot be regarded as an administration victory or an administration defeat, for the simple reason that the administration is not mixing in one way or the other. A Republican will be chosen, and that is enough.

NATIONAL MEETINGS HERE

Big Assemblages Coming to Indianapolis This Year.

Although Indianapolis is coming to be regarded by the entire country as about the best place to hold national conventionsreligious, political, educational or otherwise -there are but two or three assemblages of much magnitude to occur this year.

The first week in August the Young People's Society of the United Presbyterian Church is to meet here. Last year the annual convention was held in Kansas City and even in that out-of-the-way place the attendance approached six thousand. It is believed that at least ten thousand will come to Indianapolis, as it is located more nearly to the center of population of the church as well as the country at large. One thing has been noted with reference to Indianapolis. Railroad rates are usually better than those made to other points and always as good as any. This is a potent factor in securing conventions. Although t is early to do much, A. K. Marquis is reeiving a good many inquiries. Evans Woollen, secretary of the Commercial Club. operating with him in the work of

A month later the National Encampment of the Sons of Veterans will be held here. B. Oglesby, commander of the Indiana orps, is in charge of the arrangements, This is an occurrence that always draws large crowds. Last year there was a big ime. Judging from the past Indianapolis should attract at least five thousand on account of this event Mention has already been made of the K. of P. convocation which is to be held here next year. A great deal of work is already

in connection with it. Efforts will be made by the Commercial Club this year to secure other big events next year. May 5 the National Municipal League will meet at Louisville. James C. Carter, of New York, by many reckoned as the foremost member of the American bar, is president of the league. Charles J. Bonaparte, of Baltimore, is secretary of the executive committee. Representatives of the Commercial Club will go to Louisville to try and have Indianapolis chosen for next year's convention. In June the Epworth League national convention is to be held in Toronto. There will be and effort made to secure it for Indianapolis for next

CHILDREN'S FESTIVAL CHORUS

Another successful rehearsal was held by baton of Director Van Der

The children's chorus rehearsed in the afternoon at Masonic Hall, the boys and girls who have been rehearsing every Saturday morning coming together for the first time to sing "Into Life," by Peter the Saturday matinee concert. The boys have been rehearsed under Mrs. Perle Wilkinson at High School Hall, and the girls under Mr. Ernestinon at the Industrial Training School. Mrs. Kiser played for the rehearsal yesterday. The children are going to sing remarkably well and the cantata by them will be one of the most pleasing parts of the programme. The cantata a melodious composition, with words appropriate to the spring season, and with difficulties enough to make it of decided interest to musicians. Not a moment was wasted in the rehearsal and the children soon became accustomed to the rapid work. The parts were sung separately and in the isual order for drilling choruses. The Saturday rehearsals will continue for a month or more, and each Monday afternoon Mr. Van Der Stucken will drill the children unil the time for the festival, which is now

AN ORGANIZATION FORMED TO LOOK AFTER INTERESTS OF CYCLING.

Meeting at Denison Last Night-Th "Road Hog" Must Go-Local Cycling Notes.

There was formed last night in the Century clubroom at the Denison House an organization of wheelmen which will, cupy an important place. It is not a club in the sense that a wheelmen's club is generally taken. The organization does not expect to make the social side of the club a feature, nor does it intend to take an organized interest in cycle sporting. It is to be a protective federation. The wheel and the wheelman has heretofore been an ob-

ject of contempt with all but riders of the It is the purpose of the club to bring about a different feeling in the minds of the nonriders, especially those who have it in their power to take any advantage of The rights of wheelmen in the streets and to the protection of law are to be made the fundamental principle of the organization. If legislation is proposed which would be unjust to the wheelmen, it is the object of the organization to fight it. If legislation which would be favorable to the wheelmen, without encroaching upon the rights of others, is proposed, the organization will work for it. There are twenty thousand bicycle riders in this city and about

haif as many who use other vehicles. It protect the riders of wheels from the imhicles. All the city ordinances regulating the use of the bicycle, such as that requiring a beil and lamp, are indorsed, and aid the authorities in enforcing them. Scorching is to be condemned and wheelmen are to be encouraged in obedience to the ordinance requiring them to keep on the right side of the street, but the organization believes that regulations which are good for the wheel ought to apply equally to other vehicles, and the organization will made to so apply. Protection is the main object, though other social feature of a club and attention to

braced in the functions of the ciub when the organization is perfected. The objects of the organization and the plan of work proposed is best outlined in the report of a committee which was read last night. There was a meeting held last Wednesday night and the plan was talked over by the few who were present. At that time Messrs. F. J. Reinhard, Wallace Sherwood and E. E. Clark were appointed to put the ideas expressed at the meeting in written form. They prepared a report, which was read last night.

THE OBJECT OUTLINED. In part the report was as follows:

"The object of the organization is to secure the rights of wheel riders in this citynot a club whose sole object is to promulgate club runs, and secure a good time generally for its members, but one which the May Festival Chorus last evening, un- will by the persistent work of its members accomplish its objects. Such an organization is needed in our midst. The rights which wheel riders have obtained in this city are the work of a few individual riders. As the result of an organization nothing has been accomplished for the reason that no such organization exists. The power such an organization could exercise for the benefit of wheel riders is tremendous, Every person, excepting so-called road hogs, recognizes the benefit of the 'keep to the right ordinance,' yet, for many months previous to its passage in the Council, that same ordinance was presented to different councilmen to be introduced and not one dared to introduce it for fear some of his constituents might vote against him at the next election. Then it was fathered by the officers of the L. A. W., and soon became a law. That was the result of organiza-

There are a number of irresponsiole persons who continually defy the ordiances regarding the riding of bicycles and by their conduct and imprudence bring opprobrium upon every wheel rider in the city. It is to the interest of wheel riders that every one of these be arrested and 'After removing the beams out of our eyes we can lend our assistance in remov-

ing the hogs from the street by the prosecution of those drivers who continuously drive in the middle or the left side of the streets; also to look after the street-sweeping and street-sprinkling contractors and see that the streets are kept clean and that no more sprinkling is done than is required under the contract. Then an ordinance requiring all vehicles to carry lights after dark, and an ordinance effectively prohibiting the throwing of glass, tacks and other puncture-producing articles into the streets can be secured.'

The organization last night was made temporary only by the election of Wallace Sherwood, president, and E. E. Clark, secretary. Another meeting is called for next Wednesday night, when the objects of the organization will be further discussed and when it is hoped there will be a large at-

ess another meeting place is announced in Bicycle Notes.

AN INSURANCE BUREAU.

It Will Be Favorably Recommended to the Commercial Club.

It is altogether likely that the movement to secure expert representation of the assured in the adjustment of fire losses and ratings on buildings will take definite form in the organization of an insurance bureau by the Commercial Club. At last week's meeting of the directors of the club the matter was laid before them and referred to the committees on commerce and manuthe association will do all in its power to factures. These committees met vesterday and called before them a member of the original committee charged with the matter, who suggested two plans of getting at the subject, one by special organization as izing a fire insurance bureau as an adjunct of the club. By this latter plan, he exmake an effort to see that these laws are | plained, a bureau could be conducted by the club which would, when called upon, furhish an expert to represent the assured in either an adjustment of loss or a rating, the cost of the service to be borne by the one applying for the assistance of the bu

These two plans were discussed by the committees, with the following members present: Messrs. C. F. Smith, G. A. Schnull, J. R. Ross, T. B. Laycock, Jackson Landers, E. C. Atkins, A. H. Nordyke, A. Kipp and G. W. Snider, The bureau plan was adopted and the two committees adopted the following resolution: "We recommend to the board of directors, first, that it act favorably in the matter of promoting an organization in behalf of the interests of insurers against fire; and, second, that it authorize the appointment of committee whose duty it shall be to effect such organization as a bureau of the Commercial Club." This resolution will be presented at a meeting of the board of directors of the club this afternoon.
